

## Document Destruction & Recycling Services

Clothing and textile prices are currently at an all time high. Your projects can easily benefit from this rising recycling value simply by arranging a collection at your school.

*Turn over to follow our five simple steps...*

Clothing and shoes are distributed to developing countries.

**Would your school  
like to raise  
money for your  
own projects?**

On average our bags can hold 10kg. Most returned bags contain about 5kg. If all bags were returned as full as possible at our current market price of 50p per kg.

**100 bags  
=  
1000kg  
=  
£500!**

We also recycle books & DVD's

The broader the sacks are distributed the more you will raise for the school.

# Five simple steps to arrange a fundraising collection

1

**M & J Bowers will call and you can jointly arrange a date for your clothing collection and bag delivery**

Advise us of the number of pupils and we will work out the number of bags you require.

2

**M & J Bowers will supply your school with the bags for you to give out**

We can provide explanatory leaflets for you to distribute as well.

3

**Pupils return the bags to your collection point on the stated day**

We have found a gentle reminder the day before they are due back increases the return rate - dramatically. You could decide to run a competition internally for the class who collects the most bags or has the highest return rate – as the more weight you collect, the greater financial return the school will receive.

4

**M& J Bowers collects the filled bags**

Our vehicles arrive at your school on the agreed date to collect the filled bags and return to our depot to be weighed.

5

**M & J Bowers sends you a cheque**

A cheque will be sent within 14 days with a copy of the Weighbridge Ticket – You work out the best way to spend the funds on your project. We would love to be kept up to date with pictures and correspondence letting us know how the funds were spent – as it's great for our team to know how the money helps.

100 bags  
=  
1000kg  
=  
**£500!**
